Ref: Testimonial for Paul Davison

Dear Paul

I have recently taken over a house that my father had previously owned for some years. HE wanted to pass this onto me as a gift but I knew that there were tax implications involved in this. I sort advice from all sorts of "experts" and they all came back to me with conflicting views. I needed an expert that was going to give me the correct advice and help me reduce my tax bill.

I mentioned this in the office and Tim France suggested that I give Paul a call. I had a long chat with him regarding my case and he was happy to take time, listen to what I had to say and suggest possible ways that my tax bill could be reduced. After all the "advice" I had heard Paul was the only one that seemed to make sense.

After our meeting I had the confidence to put in place a number of measures that means that my tax bill which could have run into several thousands actually ended up being very small.

I'd like to thank Paul and Eaves and Co for all there help and I would have no hesitation in recommending Eaves and Co to anyone.

Regards

Zubaer Najib
